April showers bring forth May flowers/Las lluvias de abril dan lugar a las flores de mayo

Preschool Behavior Management Best Practices

Effective preschool behavior management is the key to maintaining a peaceful and productive classroom community. But when you're dealing with 20 or more children under the age of 5, this is easier said than done! This age group can have seemingly boundless energy and are all rapidly growing and learning, all at different paces. Building and nurturing friendships is an important milestone at this age, and emotions can run high and are hard to control.

A effective preschool behavior management strategy comes down to a few key practices. The secret to your success is putting clear behavior expectations in place and enforcing and communicating them in a kind, consistent manner. In tandem, you'll organize your classroom, materials, and your lesson plans with a few guidelines in mind to continually support positive behavior in your preschool classroom.

Mejores Prácticas de Manejo del Comportamiento Preescolar

El manejo efectivo del comportamiento preescolar es la clave para mantener una comunidad de aula pacífica y productiva. Pero cuando se trata de 20 o más niños menores de 5 años, ¡es más fácil decirlo que hacerlo! Este grupo de edad puede tener una energía aparentemente ilimitada y todos están creciendo y aprendiendo rápidamente, todo a diferentes ritmos. Construir y fomentar amistades es un hito importante a esta edad, y las emociones pueden ser altas y difíciles de controlar.

Una estrategia efectiva de manejo del comportamiento preescolar se reduce a algunas prácticas clave. El secreto de su éxito es establecer expectativas de comportamiento claras y hacerlas cumplir y comunicarlas de una manera amable y consistente. En conjunto, organizará su aula, materiales y sus planes de lecciones con algunas pautas en mente para apoyar continuamente el comportamiento positivo en su aula de preescolar.

Conscious Discipline : Building Resilient Classrooms

This book revolutionizes the classroom approach to social-emotional learning by addressing the adult's skill set and internal states first, and then empowering the adult to teach and model these skills with children.

Este libro revoluciona el enfoque del aula para el aprendizaje socioemocional al abordar primero el conjunto de habilidades y los estados internos del adulto, y luego empoderar al adulto para enseñar y modelar estas habilidades con los niños.
